List of Researchers	i
Table of Contents	viii
List of Tables	ix
List of Figures	x
Acknowledgements	xi
Industrialization and Environmental Quality: Paying the Price (in Thai)	xii
 Chapter 1 Introduction	 1
 Chapter 2 The Issues	 4
Dealing with Larger Quantities of More Hazardous Industrial Waste	4
In Search of the Right Energy Mix	7
Regulating Land Use and Financing Urban Infrastructure	8
 Chapter 3 The Findings	 10
Industry and the Environment	10
Energy and the Environment	13
Urbanization and Environment	17
 Chapter 4 Recommendations	 24
Challenges and Choices	24
The Five Principles of Cost-Effective Environmental Management	26
1. An Ambient Quality Target	
2. The Minimum Cost Principle	
3. The Polluter-Pays-Principle	
4. The Competitiveness Imperative	
5. Policy Transition	
Policies for Controlling Industrial Pollution	28
Hazardous Waste	28
Biodegradable Waste	30
Industrial Air Pollution	31
Industrial Promotion and Industrial Location	35
Choosing the Right Energy Mix	37
Transportation	38
The Power Sector	39
Greenhouse Gas Emissions	40
Managing the Urbanization-Environment Conflict	43
Environmental Impact Fees	43
Transferable Development Rights (TDRs)	46
Conclusion	47
 Reference	 49
