River Basin Management

EDITORS

R.A. Falconer
Cardiff University, Wales, UK

W.R. Blain
Wessex Institute of Technology, UK

WITPRESS Southampton, Boston

CONTENTS

Section 1: Total catchment modelling and management

Conceptual modelling for improving quality of surface water abstraction in Jakarta, Indonesia
M. Ikhwan, Y.R. Fares, S. Smith & J. Colbourne 3

Optimisation of local and regional watershed management in an Eastern-German-Polish-Czech river catchment basin
M. Burde & S. Stocksieker 13

Classification of river networks
A.F.J. Reungoat & W.T. Sloan 23

Section 2: Riverine hydraulics and hydrology

Using ISIS Sediment for simulating graded sediment behaviour in rivers
A.B. Shvidchenko, G. Pender & T.B. Hoey 33

Three-dimensional simulation of river flood flows
H. Morvan, G. Pender & A. Ervine 43

Changes in the hydrologic periodicity of the Mississippi River, USA
T. Wasklewicz, S. Franklin, S. Greulich & J. Grubaugh 53

River dynamics and restoration: A comprehensive management strategy
J.S. Antunes do Carmo & J.C. Marques 63

Changes in flow in the upper North Canadian River basin of western Oklahoma, pre-development to 2000
K.L. Wahl 73

A one-dimensional coupled hydrodynamic and salinity model of the Clyde Estuary
J.M. Crowther & F. Chen 83

Section 3: Flood mapping and prediction

Use of an integrated one dimensional-two dimensional hydraulic modelling approach for flood hazard and risk mapping
E. Frank, A. Ostan, M. Coccato & G.S. Stelling 99

Effects of flood plain management on river hydraulics – a case study
M. Hartnett, P. Johnston & R. Leslie 109

Flood forecasting in Andhra Pradesh, India
M.D. Stewart, D.J.J. Buzzacott, K.J. Riddell, T.M. van Kalken & C.G. Kilsby 119

Uncertainties in Dam Failure Modelling with the US NSW BREACH Model
M. Mohamed, P.G. Samuels & M.W. Morris 129

Design and development of an internet-based flood forecasting system using real-time rainfall, radar and river flow data
M. Butts, A. Klinting, T. van Kalken, D. Cadman, C. Fenn & J. Høst-Madsen 139

Open architecture in flood forecasting systems
R. Khatibi, J. Haywood, A. Akhondi-Asl, C. Whitlow, P. Wade & T. Harrison 149

Appropriate spatial resolution in flood damage modeling
J.L. de Kok 161

Section 4: Wetland restoration and management

Protection of vulnerable wetlands located in the south-east part of Sicily; a plan to restore the original habitat
G. Siracusa, A.D. La Rosa, M. Termini, M. Trovato & F. Patania 169

River and environmental processes in the wetland restoration of the Morava River
K. Holubova & M.J. Lisicky 179

Channelization effects on floodplain functions in western Tennessee
S.B. Franklin, J.A. Kupfer, S.R. Pezeshki, N. van Gestel & R.W. Gentry 189

Section 5: Water quality and environmental modelling

The effect of effluents from fish hatcheries on slightly disturbed rivers – a case study
A. Gross 205

Modelling hydro-environmental processes in riverine systems
R. Falconer, E. Harris, S. Kashefipour & B. Lin 219

Description of nutrients seasonal behaviour in Ebro river plume
I. Romero, J. Rodrigo, J.G. del Rio, J.P. Sierra, M. Rodilla, A. Sánchez-Arcilla, S. Falco, R. Martínez, M.C. Pérez, V. Benedito, F. Aparisi & C. Mosso 231

Modeling water quality in time and space: case study the Litani River, Lebanon
M.N. Nimah, J. Haddad & M. Dandan 241

Section 6: Ecological and bacteriological perspectives

Implementation of a catchment-based national microbial water quality monitoring programme in prioritised high health risk areas
H. van Niekerk, A. Kühn & P. Kempster 253

Guidelines for spatial distribution of ecotopes, based on ecological networks and geomorphological boundary conditions
S.A.M. van Rooij, W.M. Liefveld & G.J. Mass 261

Section 7: Hydrological modelling, GIS and remote sensing

Integrated hydrologic and landslide risk management in the Romagna River Basins using cartographic predictive modeling
A. Pistocchi & O. Zani 273

Quantitative approach for the determination of hydrological landscapes
F. Delclaux & C. Depraetere 283

Taking hydro-spatial analysis to another dimension using STEM, a 4D GIS
A.P. Murdock, H.H. Bottress & K.P. Morris 293

Remote sensing of fluvial landforms in the Lar Basin, Iran
K. Solaimani 305

Geographic Information Systems, Expert Systems and Neural Networks: Disaster planning, mitigation and recovery
W.S. Huffman 311

Section 8: Hydroinformatics technologies

A systems strategy for flood forecasting and warning – an integral part of the Environment Agency's approach to integrated river-basin management
A. Knott & J. Haywood 325

Long-term data for understanding and simulating processes at the watershed scale
C.W. Slaughter 337

Section 9: Engineering solutions and case studies

Operational aspects of a barrage in extreme climatic conditions
Y.H. Lim & J.J. Sharp 349

River basin water nitrate quality management with respect to the existing data structures
M. Veselič, M. Pintar, A. Drolc, G. Vižintin, B. Čenčur-Curk, M. Roš & J. Zagorc-Končan 359

River inundation modelling for risk analysis
L.H.C. Chua, F. Merting & K.P. Holz 373

Five years of artificial bed load feeding in the River Elbe
A. Schmidt & P. Faulhaber 383
