Table of contents

1 Introduction 5

2 Integrated Environmental Assessment 7

- 2.1 Definition of IEA 7
- 2.2 The DPSIR-framework 8
- 2.3 The appropriate geographical scale 9

3 Eutrophication in rivers, lakes and coastal areas 11

- 3.1 Definition 11
- 3.2 Nutrient cycling and the impact of various sectors 11
- 3.3 Nutrient concentrations 15
- 3.4 Ecological effects in aquatic ecosystems 16

4 Relevant EU-legislation 23

- 4.1 The Urban Waste Water Directive 23
- 4.2 The Nitrate Directive 23
- 4.3 The proposed Ecological Directive and the future Framework on Water 24
- 4.4 The CAP-reform 25

5 Key studies 27

- 5.1 Studies covering the DPSIR framework 27
- 5.2 Studies covering relationship between agriculture and N-concentration/N-loads 32
- 5.3 Phosphorus loads related to human activities 37

6 Case studies 39

- 6.1 The River Rhine catchment 39
- 6.2 The catchment of Odense Fjord 41
- 6.3 The River Avon catchment 45
- 6.4 The Forfar Loch catchment 49
- 6.5 The River Ebro catchment 50
- 6.6 Cross analysis 52
- 6.7 Possibilities for establishment of scenarios to describe the effect of relevant EU-legislation in the catchments 57

7 Recommendation for future IEA work on eutrophication 61

- 7.1 Introduction 61
- 7.2 Identification of the problem 62
- 7.3 Analysis of relationship 63
- 7.4 Policy options 73

7.5	Aggregation	75
7.6	Conclusions	82

8	Summary of recommendations from pilot study and workshop	87

Data sheet

Title: Integrated Environmental Assessment on Eutrophication

Subtitle: A Pilot Study

Authors: Torben Moth Iversen⁽¹⁾, Karina Kjeldsen⁽¹⁾, Peter Kristensen⁽¹⁾, Bronno de Haan⁽²⁾, Miel van Oirschot⁽³⁾, William Parr⁽⁴⁾ & Tim Lack⁽⁴⁾

Institutes: National Environmental Research Institute (NERI)⁽¹⁾, DK
National Institute of Public Health and Environmental Protection (RIVM)⁽²⁾, NL
Institute for Inland Water Management and Waste Water Treatment (RIZA)⁽³⁾, NL
Water Research Center (WRC)⁽⁴⁾, UK

Serial title and no.: NERI Technical Report, No. 207

Publisher: Ministry of Environment and Energy
National Environmental Research Institute ©

URL: <http://www.dmu.dk>

Year of publication: November, 1997

Referee: Niels Thyssen, Keimpe Wiennga

Layout: Kathe Møgelvang, Juana Jacobsen

Word-processing: Hanne Kjellerup Hansen, Aase Pedersen
