Posters

Activated Sludge Systems

A. KURKI, J. HANTULA, D. BAMFORD and P. VUORIRANTA: Floc formation of activated sludge bacteria	1637
R. YAMAMOTO and S. MATSUI: Influence of contact loading on polysaccharide storage and settleability of activated sludge	1639
F. ROGALLA, G. BACQUET, M. BONHOMME and M. BOISSEAU: Fixed biomass carriers in activated sludge plants	1643
S. R. WILSON and J. R. WHARFE: Application of microscopic examination of activated sludge to operational control	1647
M. HOSOMI, K. MATSUSIGE, Y. INAMORI, R. SUDO, K. YAMADA and Z. YOSHINO: Sequencing batch reactor activated sludge processes for the treatment of municipal landfill leachate: removal of nitrogen and refractory organic compounds	1651
A. LEBEL, R. MEEDEN and B. A. STIRRAT: Biophysical treatment facility for hazardous waste landfill leachates	1655

Ponds/Vegetation

N. J. MARTIN and H. J. FALLOWFIELD: Computer modelling of algal waste treatment systems	1657
J. A. BENDER, E. R. ARCHIBOLD, V. IBEANUSI and J. P. GOULD: Lead removal from contaminated water by a mixed microbial ecosystem	1661
H. BRIX and H.-H. SCHIERUP: Sewage treatment in constructed reed beds — Danish experiences	1665
J. E. BUTLER, R. F. LOVERIDGE and D. A. BONE: Crop production and sewage treatment using gravel bed hydroponic irrigation	1669

Anaerobic Treatment

- R. MÉNDEZ, L. M. PAN and J. M. LEMA: Effect of C/N/P ratio on the performance of a downflow stationary fixed film reactor (DSFFR) working at low organic loading rates 1673
- K. K. CHIN: Performances of charcoal chip and sand packed anaerobic reactors 1677
- I. OZTURK, G. K. ANDERSON and C. B. SAW: Anaerobic fluidized-bed treatment of brewery wastes and bioenergy recovery 1681
- A. KUDO: Decomposition of pentachlorophenol by anaerobic digestion 1685
- J. A. M. V. VAN ESCH, A. L. WILLIAMS, W. J. JONES, W. H. CROSS and F. G. POHLAND: The role of sulfate-reducing bacteria in the establishment of the methanogenic phase of refuse stabilization 1689

Activated Carbon

- P. LE CLOIREC, G. MARTIN and J. GALLIER: Dynamics of protons in activated carbon: ^1H NMR studies 1693
- P. C. CHIANG and J. S. WU: Evaluation of chemical and thermal regeneration of activated carbon 1697
- G. J. ALAERTS, V. JITJATURUNT and P. KELDERMAN: Use of coconut shell-based activated carbon for chromium (VI) removal 1701
- M. S. AZAB and P. J. PETERSON: The removal of cadmium from water by the use of biological sorbents 1705
- K. J. DEENY, J. A. HEIDMAN and A. J. CONDREN: An assessment of activated sludge systems practicing powdered activated carbon addition with wet air regeneration 1707

Nutrient Removal

- D. DAVELAAR: Manganese: a necessary micronutrient to enhance biological phosphorus removal? 1711
- M. SUZUKI and C.-H. YOON: Kinetics of phosphorus release and uptake by micro-organisms under cyclic anaerobic/aerobic conditions — experimental study 1717
- D. W. DE HAAS: Fractionation of bioaccumulated phosphorus compounds in activated sludge 1721
- E. BUNDGAARD, K. L. ANDERSEN and G. PETERSEN: Bio-Denitro and Bio-Denipho systems — experiences and advanced model development: the Danish systems for biological N and P removal 1727

- M. C. GORONSZY and J. WHITE: Biological nutrient removal with
sludge bulking control in a batch activated sludge system 1731

Ozonation/Odour Control/Disinfection

- Y. JUN and W. BAOZHEN: The efficacy and mechanism of removal of
organic substances from water by ozone and activated carbon 1735
- J. P. MOORE and E. M. DAVIS: Odor characterization and control in
a chemical wastewater equalization basin 1739
- R. SUDO, Y. INAMORI, Y. KUNIYASU and T. OUCHIYAMA:
Predation and deodorization of musty odor-producing filamentous algae
by the protozoa *Trithigmotoma cucullulus* 1743
- M. G. C. BALDRY and M. S. FRENCH: Activity of peracetic acid
against sewage indicator organisms 1747

Aerobic Biofilms/Bioadsorption

- R. Y. TOKUZ: Biodegradation and removal of phenols in rotating
biological contactors 1751
- Y. INAMORI, K. MATSUSIGE, R. SUDO, K. CHIBA, H. KIKUCHI
and T. EBISUNO: Advanced wastewater treatment using an immobil-
ized micro-organism/biofilm two-step process 1755
- A. GRAPPELLI, J. S. HARD, W. PIETROSANTI, U. TOMATI,
L. CAMPANELLA, E. CARDARELLI and M. CORDATORE:
Cadmium decontamination of liquid streams by *Arthrobacter* species 1759

Sedimentation/Sludge

- D. J. LUMLEY and G. HORKEBY: Detention time distribution of
sludge in rectangular secondary settlers 1763
- N. J. BENNETT: Grit — its removal, a new idea 1767
- L. R. J. VAN VUUREN and P. J. VAN DER MERWE: Thickening of
sludges by dissolved air flotation 1771
- J. L. DAKERS, C. J. HATTON and P. A. PEARCE: Mogden digested
sludge — approaches to improving dewaterability 1775
- T. MURAKAMI and M. NAKAO: Characteristics of dewatered sludge
cake 1779

Stormwater Overflows

- C. MARTE and Y. RUPERD: Processing of storm-water run-off —
French experiments 1783

S. C. BIRD, N. REYNOLDS and R. HENDERSON: Monitoring effects of a storm sewer overflow upon the Nant Ffrwd, South Wales	1785
R. J. HENDERSON: Rainfall time series for storm overflow assessment	1789
C. P. CROCKETT, R. W. CRABTREE and H. R. MARKLAND: SPRAT — a simple river quality impact model for intermittent discharges	1793
S. O. PETERSEN: Modelling of pollution loads from combined sewer systems to receiving waters	1797

Management/Systems Analysis/Modelling

J. HELMER, J. VINK and J. M. JANUS: Review on the design and construction of a large wastewater treatment plant	1801
D. E. BOURNE and L. T. BOURNE: Water consumption patterns among individuals in Cape Town	1805
K. KOSKINEN: Expert system as a top level controller for activated sludge process	1809
C. ASSEZAT: Probabilistic reliability analysis for biological wastewater treatment plants	1813
E. H. S. VAN DUIN and L. LIJKLEMA: The development of an operational two-dimensional water quality model for Lake Marken, the Netherlands	1817
M. SUZUKI, K. CHIHARA, M. OKADA, H. KAWASHIMA and S. HOSHINO: Development of dialog system model for eutrophication control between discharging river basin and receiving water body — case study of Lake Sagami (Japan)	1821

Industrial Wastewater Treatment

C. H. MÖBIUS: Biological treatment of papermill wastewater in an activated sludge cascade reactor	1825
R. R. LANDRETH: The use of cultured bacteria in a full scale biological system treating coke plant wastewater	1829
E. M. DAVIS, E. C. SULLIVAN and T. D. DOWNS: Determination of Cellosolve and Chlorex concentrations inhibitory to industrial waste stabilization pond treatment efficiencies	1833
G. D. RAMEY and E. M. DAVIS: Bis(2-chloroethyl)ether and 2-ethoxyethanol treatability and toxicity in lab scale waste stabilization ponds	1837
P. RIPPER and H. FRÜCHTENICHT: Removal of the groundwater pollution below an abandoned waste oil refinery	1841

P. M. BÜCHLER: The treatment of wastewaters from sugar cane alcohol production with modified bentonites	1845
D. MIŠKOVIĆ, B. DALMACIJA, Z. HAIN, E. KARLOVIĆ, S. MARIĆ and N. UZELAC: Investigation of an innovative technology for oil-field brine treatment	1849
C. WETTER, K. POEPPINGHAUS, H. MORAIS, M. DIAS, B. MENDES, F. SANTANA and J. F. S. OLIVEIRA: Production of protein for animal feed stuff using organic wastewaters from wine distilleries	1853
R. MÉNDEZ, R. BLÁZQUEZ, F. LORENZO and J. M. LEMA: Anaerobic treatment of cheese whey: start-up and operation	1857
J. B. LE HY, B. MONTUELLE and J. COILLARD: Anaerobic/aerobic treatment of piggery and cheese-dairy wastewater — a case study	1861
I. F. SVOBODA: A computer program for farm waste management	1865
Pollutants: Behaviour/Effects/Measurement	
T. S. KOUSSOURIS, A. C. DIAPOULIS, I. T. BERTAHAS and K. C. GRITZALIS: Self-purification processes along a polluted river in Greece	1869
I. B. PALHEIROS, A. C. DUARTE, J. P. OLIVEIRA and A. HALL: The influence of pH, ionic strength and chloride concentration on the adsorption of cadmium by a sediment	1873
S. SAITO, K. HATTORI and T. OKUMURA: Outflows of organic halide precursors from forest regions	1877
F. VOUTSINOU-TALIADOURI and E. TH. BALOPOULOS: Geochemical and water flow features in a semienclosed embayment of the Western Aegean Sea (Pagassitikos Gulf, Greece) and physical oceanographic and geochemical conditions in Thermaikos Bay (Northwestern Aegean, Greece)	1881
Y. INAMORI, K. MATUSHIGE, R. SUDO and H. KIKUCHI: Effect of organochlorine compounds on existence and growth of soil organisms	1887
M. SCHINTU, N. SECHI, G. SARRITZU and A. CONTU: Reservoir sediments as potential source of heavy metals in drinking water (Sardinia, Italy)	1891
K. NAKAMURO, H. UENO and Y. SAYATO: Mutagenic activity of organic concentrates from municipal river water and sewage effluent after chlorination or ozonation	1895
L. LIJLEMA, J. H. JANSSEN and R. M. M. ROIJACKERS: Eutrophication in the Netherlands	1899

R. A. DINES and J. R. WHARFE: Rapid pollution assessment in tidal waters	1903
S. OKOUCHI and H. SAEGUSA: Determination of volatilization coefficients of trihalomethanes from waters	1907
K. MORIYAMA, T. MORI, H. ARAYASHIKI, H. SAITO and M. CHINO: The amount of heavy metals derived from domestic wastewater	1913
B. BERTHET, J. C. AMIARD, C. AMIARD-TRIQUET, C. MAILLET, C. MÉTAYER, J. LE BOHEC, M. LETARD and J. PELLETIER: Fate of metals linked with sewage sludges or municipal refuses used as improvements in market gardening	1917
Subject index	1921
Erratum	ix
New patents	xi

WATER POLLUTION RESEARCH AND CONTROL, Brighton

Part 5 of the Proceedings of the Fourteenth Biennial Conference of the International Association on Water Pollution Research and Control, held in Brighton, UK, 18–21 July 1988

For the IAWPRC 14th Biennial Conference there were some substantial changes to the traditional scientific programme format. The IAWPRC Specialist Technical Groups played a much larger part by organizing a number of specialized seminars, in addition to the general sessions, and the number of parallel sessions was increased to a maximum of six. The Conference proceedings thus contain papers on a wide range of subjects related to water pollution research and control, which should be of interest to both generalists and specialists.

Part 5 contains summaries of the discussions of the papers presented in the various sessions of the whole Conference. The texts of these papers are contained in Parts 1–4 of these proceedings. Also included here are poster presentations on the following subjects: Activated Sludge Systems; Ponds/Vegetation; Anaerobic Treatment; Activated Carbon; Nutrient Removal; Ozonation/Odour Control/Disinfection; Aerobic Biofilms/Bioadsorption; Sedimentation/Sludge; Stormwater Overflows; Management/Systems Analysis/Modelling; Industrial Wastewater Treatment; Pollutants: Behaviour/Effects/Measurement.

The material incorporates aspects of both research and practice in water pollution control, and contains valuable information for the abatement of water pollution and the enhancement of the quality of the water environment worldwide.
