ANNEX 1 List of Participants
ANNEX 2 Agenda
ANNEX 3 Working Groups

PREFACE

This document contains the Papers prepared during the course of the meeting. In a few cases, slight editorial changes have been made.

These papers form a companion publication to the "Report on the Expert Consultation on Irrigation Water Charges", published in 1986. Together, they comprise a proceedings of the Expert Consultation.

Owing to the decision to print all the working papers, it has been necessary to divide them between two volumes. Volume 1 contains an introduction and its background, and the Technical Papers. Volume 2 contains the Country Papers and the Annexes.

Any queries should be referred to Prof. J. Němec, Chief, Water Resources, Development and Management Service, Land and Water Development Division.
